## Your dental care

We encourage our patients to be involved in decisions about their dental care and before embarking on any aspect of treatment we seek their consent.

We will explain why we feel the treatment is necessary, the risks and benefits of the proposed treatment, any options and what might happen if the treatment is not carried out.

We respect the patient's right to refuse consent or change their mind after they have given consent.

We make sure the patient understands whether they are being treated under the NHS or privately and what the costs will be.

We can provide a written treatment plan and a copy of the cost estimate.

We have a complaints policy and try to ensure that all our patients are pleased with their experience.
